REPLY TO RESTRICTION REQUIREMENT

Honorable Commissioner for Patents
Washington, D.C. 20231

Sir:

Repyling to the Office Action of September 25, 2000, primarily in the nature of a restriction requirement, applicant hereby respectfully and provisionally elects Group I, presently claims 1-6 and 10-13, without prejudice and with traverse.

The traversal is based on the fact that, while the examiner recognizes that unity of invention rules rather than restriction practice applies, the office action does not recognize that there is a patentable special feature linking the three inventions. The pending claims are not the same as the claims which were subject to the International Preliminary Examination Report. Claims 1-3 are patentable for the same

reasons as are the claims of Groups II and III, and thus the claims all share the same special feature, which feature applicant believes provides patentability to all of the claims in this application.

Accordingly, applicant respectfully requests that requirement be withdrawn and that all the claims 1-17 be examined consistent with the unity of invention rules.

Applicant notes that the PTO has acknowledged receipt of applicant's papers filed under \$119.

Respectfully submitted,
